

<b>HUGYFOT Underwater Camera Housings</b>	<b>Retail DKK</b>
---	-------------------

All our housings are milled out of a solid block of High-End sea-waterproof aluminium. The surface is sanded and color-anodised. Standard with all housings comes the ergonomic patented handgrip with a sensitive lever and an extra big supervision viewfinder. For each objective we have a port available with a quick-release. All necessary commands are operatable while diving, and all display's en LCD screens are visible. Thanks to the ball-and-socket joint available on the housing itself we have a very compact design. All housings are tested on 100 m. Warranty 2 years.
